

IBS Grease Treatment granular is a completely natural, granular blend of naturally occurring and specifically selected microbes that will help clear and clean grease traps, drain lines, and sewer systems. The microbes naturally bio-remediate almost all factions of animal fats and vegetable oils, as well as, proteins, starches and cellulosic organics.

When using the grease treatment granular, there is no need to worry about affecting the surrounding environment.

Storage & Handling

Store in a cool, dry place. In case of accidental exposure on skin or in eyes, flush with water for 15 minutes until slippery feeling is gone. Consult a physician if irritation persists. This product is mildly acidic and contains biodegradable surfactants.
